EDUCATION

University of Massachusetts Amherst

Expected May 2028

B.S. in Computer Science | Commonwealth Honors College | GPA: 3.97/4.00

Amherst, MA

Relevant Coursework: Data Structures, C Programming, Web Programming, Machine Learning, Data Management

TECHNICAL SKILLS

Languages: Python, C, C#, Java, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks & Tools: Svelte, SvelteKit, Tailwind CSS, Supabase, Unity, Docker, Git, Linux

PROJECTS

[YourSplit](#) | *SvelteKit, TypeScript, Tailwind CSS, Supabase*

Apr 2026 - Present

- **Collaborate on a three-person team** building and deploying a full-stack workout platform where users create, save, browse, share, and favorite training routines.
- **Integrated Google Analytics** and contributed to a SvelteKit application backed by Supabase authentication and PostgreSQL, deployed through Cloudflare Workers.

[Chess Engine](#) | *C#, Unity*

Jul 2025

- **Built a playable chess engine** with legal move generation, position evaluation, and automated move selection in C#.
- **Implemented minimax with alpha-beta pruning** to reduce the search space and integrated the engine with an interactive Unity interface.

[Assembly Interpreter](#) | *C, Linux*

Mar 2025

- **Developed an assembly-language interpreter** that reads external programs, parses instructions, maintains register state, and executes operations in C.
- **Tested and debugged execution behavior** in Linux to validate instruction handling and emulate low-level CPU state changes.

[Independent Game Development](#) | *Unity, PuzzleScript*

Nov 2024 - Present

- **Designed and shipped multiple puzzle games** independently, applying iterative level design, gameplay scripting, and playtesting across Unity and PuzzleScript.
- **Earned selection for Delicate Logic** in the 2025 Confounding Calendar puzzle-game contest.

[Portfolio Website](#) | *SvelteKit, Tailwind CSS, Vercel*

Dec 2024 - Present

- **Built and deployed a responsive portfolio** to present technical projects, skills, and contact information, with source managed in Git and continuous hosting through Vercel.
