

Boden Harris

blharris@umass.edu | 617-584-4443

EDUCATION

B.S. in Computer Science, University of Massachusetts Amherst, GPA: 3.97, Expected May 2028

Relevant Coursework: Data Structures, C Programming, Web Programming, Computer Systems Principles

Honors: Commonwealth Honors College

SKILLS

Programming languages: Python, C, C#, Java, JavaScript, HTML, CSS

Software & Frameworks: Git, Vim, Docker, Svelte, Tailwind, Unity,

PROJECTS

Chess Engine (July 2025)

- Designed and implemented a chess engine in C# capable of board evaluation, move generation, and move selection.
- Developed a minimax algorithm with alpha-beta pruning to optimize move selection.
- Designed an interactive user interface, using Unity, to allow easy access play.

Assembly Interpreter (March 2025)

- Developed a simulation of an assembly interpreter in C capable of reading external files and executing assembly instructions.
- Implemented instruction parsing and register manipulation to emulate low-level CPU behavior.
- Utilized Vim and Linux environment for development, debugging, and testing.

Portfolio Website - bodenharris.vercel.app (December 2024 - Present)

- Built a personal portfolio website using SvelteKit and Tailwind CSS to showcase projects and technical skills.
- Deployed using Vercel and maintained version control with Git.

Online Multiplayer Game (September 2025 - Present)

- Collaborated with a peer using Unity to build a multiplayer game inspired by Jackbox, featuring real-time interactions between a host and connected players.
- Implemented client-server communication using Unity's networking API (AirConsole).
- Developed UI, game logic, and lobby systems, supporting up to 8 connected devices.
